**Sire:** CHIMERON Z, is a beautiful modern stallion with outstanding jumping technique, which is not surprising when you consider his pedigree. He is by the famous Chellano Z (Contender - Cor de la Bryere), and his dam Alpine Z, is by Acord II, and out of, April Love Z, an Alme Z daughter.

**Dam:** LUCY Z, is by Lucino Z, who is the producer of many great show jumpers, most notably, Lucas (Canadian Warmblood), who competed at 1.60m, and was named as the Canadian Team Alternate for WEG. On Lucy Z's dam side we have Margie Goldstein-Engle's Grand Prix stallion Lenz(Land of Kings). This is definitely a family of top performance horses!

**Notes:** CHIMILON Z is the epitome of modern sport horse breeding. She has a light rhythmical trot, and balanced active canter, and a dynamic scopey jump. On top of that she is a beautiful model, with a great neck and powerful top line. Chimi is a very good student, quick to learn any new task. Currently she is lunging with bridle, saddle, and side reins, by sale time she will be lightly started under saddle. She is good for the farrier, the vet, and loads and travels well in the trailer. Chimilon Z is an exceptional prospect that is sure to make her mark at the top of the sport! Thank you for considering Chimilon Z!
