		Ocoucha (Bwp)
	Fissa de Leuze (Bwp)	Nicias III (Bwp)
		Bella (Bwp)

Sire: CHICAGO was imported to North America in 2015, this impeccably bred stallion quickly stepped up to the FEI 4* Grand Prix level with impressive results. He competed in the prestigious Canadian Championships at the Royal Fair in Toronto, Ontario and qualified for the National Talent Squad Finals. He further has several top ten finishes in ranking classes to 1.60m. This includes a top ten in the World Cup Qualifier at the Royal West in Calgary, Alberta. In Europe he competed in the age classes qualifying and competing at Lanaken in the World Young Horse Finals. He is truly a gentleman to work with both on the ground and under saddle.

Dam: NEC PLUS ULTRA MGC LEUZE competed internationally up to 1.50m. She has produced many top sport horses and approved stallions around the globe.

Notes: NEBRASKA - Looks, Pedigree. Performance!! Don't miss this opportunity. Nebraska is without question headed for big things. Her sire jumped to 1.60m and dam jumped to 1.50m. Her dam has not let us down yet as a brood mare. So far every single one of her foals have gone on to have successful sport seasons both in Canada and Europe. Nebraska shows great athleticism in everything she does. She jumps through the chute with scope and power, demonstrating quick reflexes and great shape. She is easy to work with and sure to become a very valuable asset once she is started under saddle. Don't wait, a horse of this quality doesn't come around every day!
