Sire: DALLAS competes at the top level of sport with Jur Vrieling and his oldest offspring who are just 8-years old this year are already showing a lot of success in the young horse championships with multiple offspring at the 1.40-1.45m level. A notable son, Dacantos, is approved GOV and was sold for 950,000 Euro as a young horse. Dallas is by the great Darco son Douglas and his dam side is Heartbreaker x Mr Blue. He has huge scope, combined with bravery and carefulness which he passes on to his offspring.

Dam: EDEA combines some of the greats of showjumping and has no less than six GP stallions in a row, including Indorado, Corland and Ramiro. She herself was retained as a broodmare and I-Edea is her oldest offspring. With the combination of Dallas and Edea's bloodlines you have some of the greatest stallions of show jumpers of the past 25 years, all in one pedigree!

Notes: I-EDEA is a long lined, tall, impressive mare who carried one foal herself before her import, as well as producing an outstanding filly by Tacorde via embryo transfer which KVF will retain. She has competed up to the 1.10m in Canada and shows plenty of ability to easily become a very competitive 1.30m+ horse as well as a top EQ horse. I-Edea is straightforward to ride and goes in a simple snaffle, she is very brave and is always willing to work. Through COVID she has been gaining more valuable miles on the flat, hacking in the field alone or in groups and jump schooling. If you are looking for a talented, scopey horse with a great pedigree and excellent temperament, I-Edea is your horse.
