Sire: ATLAS is an impressive horse, by Aquilan Calypso out of our grand prix mare Arielka (Argentinius x Darco x Nimmerdor), both his parents are so impeccably bred and were so extremely successful in their own. Atlas, is no less impressive, in both his presence and his quality. In September 2016, Atlas was the high scoring stallion at the CWHBA stallion inspection, earning himself a license with them. He has since matured in to an exceptional horse that shows both tremendous suspension in movement and amazing scope and technique. So far his foals have been little copies of their sire.

Dam: LOLLIPOP "Lolli" is one of our home bred mares by the stallion Leeto Z. Beautiful, correct conformation, powerful and elegant movement, combined with incredible scope make him an all-around exceptional athlete. Although, perhaps his best feature, is his intelligent and engaging personality that not only makes him a brave and willing partner, but also a quick learner and simple straight forward ride. Lolli has all of these positive attributes of her sire. She is young and only now starting her sport career, but has both the movement and the jump to be a high end hunter.

Notes: ABIRA is a beautiful filly, with long legs and confident presence. She is smart, willing and engaged. As a yearling, we haven't done much in the way of work. We believe in letting them mature physically before they start any real training, however she leads well, stands for farrier, tolerates being braided and in general is an easy horse to work around. Her jump is correct and brave. Her movement is powerful but balanced. She will make an excellent prospect for any or all rings. This seller will include with purchase transport to Vancouver Area, Edmonton or Calgary
